I. Purpose of the Training Partner Programs

Become a part of the community that supports open source by supporting the people who work in it.

Linux Professional Institute (LPI) is more than just the world's most-trusted open source certification body. We are actively working to support personal development, professional ethics, and community growth. As part of our 20th year we are embarking on a number of new initiatives towards those goals:

- Individual membership in LPI, which will provide benefits targeted at professional improvement and ongoing learning, as well as a say in our governance
- New certification programs that reach beyond conventional fields of system administration to support managers and others interested in open source

Mention the extending of Essential and more outreach to younger learners?

Be a part of this, join the community of LPI partners.

Benefits for Linux Professional Institute Training Partners

- Use of the LPI logo, LPI certification and other program brands
- Discount on direct exam sales (retail price)
- Access to a joint marketing fund
- Opportunity for cooperative promotions at LPI events

2. Training and Academic Partner Programs

For training companies, willing to be able to add value to their training and teaching material, enabling their students to take the Linux Professional Institute certification exam at the end of the course.

For Information Technology related schools, colleges and universities, willing to add value to their undergraduate candidates, so they can start a career in the IT market with a Linux / Open Source professional certification.

3. Partner Program Elements
